House Things

goodies you won't mind dusting

by janet reynolds

IT TOOK ME over a year to find the right curtains for my middle child's former bedroom, now reclaimed as a guest room. If only I had discovered Curtainworks.com sooner, I could have solved my curtain problem earlier. The right window treatments finish off a room like nothing else. (And the wrong window treatments obviously do the opposite.) [Curtainworks](http://Curtainworks.com) has just about anything you could ever want for windows, from curtains to hardware. Pictured here is the Othello Modern Geometric Curtain Panel (\$19.99 - \$39.99). Go to www.curtainworks.com.
